Professional Summary

Dedicated Software Developer with 2+ years of experience building innovative web applications. Skilled in crafting user-centric solutions. Proficient in API integration, CSS frameworks, and JavaScript libraries. Committed to staying up-to-date with industry trends and leveraging my strong communication and problem-solving abilities to deliver high-quality results.

Technical Skills

JavaScript (ES6, React, Redux, React, NodeJs, ExpressJs), PHP (WordPress & Elementor), MySQL, MongoDB, CI/CD (Github Action), TypeScript, HTML/CSS, Git .

Work Experience

Software Developer / Instructor

GMTsoftware Solutions

July 2024 - Current CBD, FCT. Abuja

- Designed and Developed software applications based on user stories, requirements and design specification.
- Used established coding standards and methodologies and coached 7+ frontend developers on best practices.
- Worked with an agile scrum team contributing to a 100% continuous improvement and deployment (CICD).
- Developed, tested, debugged and documented 18+ software applications.

Frontend Developer (Intern)

InternPulse

April 2024 - June 2024

- Contributed to the development of the "Farimdine" agro app, leveraging React, TypeScript, and TailwindCSS.
- Built a robust payment checkout feature, ensuring secure and efficient transactions.
- Implemented a real-time chat feature to facilitate communication between users.
- Designed and developed a user-friendly dashboard for managing user accounts and preferences.
- Implemented efficient solutions to optimise application performance and user experience.

Frontend Developer (Trainee)

HerTechTrail Academy

Dec 2023 - Mar 2024

- Translated UI/UX designs into robust code, utilising React, Tailwind CSS, and JavaScript, resulting in visually appealing and responsive web applications.
- Collaborated closely with interdisciplinary teams, including designers, product managers, and backend developers, to seamlessly integrate frontend components with backend functionalities, ensuring optimal performance and user experience.
- Conducted comprehensive testing and debugging procedures to maintain the integrity and functionality of the web applications, proactively identifying and resolving any issues to deliver a seamless user experience.

Projects

Farimdine - a digital platform designed to connect farmers, consumers, and businesses involved in the agricultural industry.

- Implemented a chat feature that provides a communication channel for users to interact with each other, farmers, or businesses.
- Developed a payment feature enabling users to make secure transactions for agricultural products or services.

- Developed a dashboard for users to access and manage their account information, orders, and preferences.

Mealpal - a food delivery app that offers a curated selection of meals from local restaurants.

- Implemented referral feature to incentivize users to invite their friends to join Mealpal.
- Implemented bonus point system to reward users for various activities on the Mealpal app.

Education

Nnamdi Azikiwe University, Awka. Nigeria Bachelor Of Science, Sep 2015 - Mar 2020
Surveying and Geoinformatics

HertechTrail Academy Software Engineering Dec 2023 - Mar 2024
Front End Engineering
