SUMMARY

A meticulous Software Developer, with over a year of hands-on experience in crafting dynamic front-end web solutions. My journey has been marked by honing my skills in Software development, where I've cultivated a deep understanding of Application Programming Interfaces, harnessed the power of Cascading Style Sheet Frameworks, and leveraged JavaScript Libraries to bring compelling web experiences to life, and a distinction graduate of Nnamdi Azikiwe University with excellent communication skills, I am inherently self-driven and possess a boundless motivation to continually enhance my problem-solving acumen.

EXPERIENCE

Software Developer, HerTechTrail Academy

Dec 2023 - Mar 2024

- Translated UI/UX designs into robust code, utilizing React, Tailwind CSS, and JavaScript, resulting in visually appealing and responsive web applications.
- Collaborated closely with interdisciplinary teams, including designers, product managers, and backend developers, to seamlessly integrate frontend components with backend functionalities, ensuring optimal performance and user experience.
- Conducted comprehensive testing and debugging procedures to maintain the integrity and functionality of web applications, proactively identifying and resolving any issues to deliver a seamless user experience.

PROJECTS

E-commerce App

I developed a web application to facilitate the shopping of mobile phones and accessories, client-side development, testing the website's usability, and ensuring its compatibility across various browsers. <https://anezijane.github.io/phone-shop/>

Food Menu

The application was designed to provide users with a seamless and intuitive experience, allowing them to make informed and efficient choices when selecting their preferred menu items. <https://anezijane.github.io/Food-Menu/>

Todo-List

Developed software Application of a daily to-do list Desktop and Mobile to enable users to access and manage their to-do lists on a variety of devices, making it a versatile and practical tool for both personal and professional use..

<https://anezijane.github.io/ToDo-App/>

Multi-Form

A dynamic and user-friendly multi-form web page designed to streamline complex processes into manageable steps. Featuring a sleek and intuitive design, it guides users through various stages with ease, enhancing engagement and efficiency. <https://janeanezi.github.io/Multi-Step-Form/>

My portfolio

The web page was meticulously designed to captivate and convert visitors. Enable navigation to various pages, about, contact, portfolio, and home with responsiveness in mind, ensuring seamless functionality across various devices and screen sizes. <https://janeanezi.github.io/Portfolio/>

Age Calculator

A versatile and user-friendly tool designed to effortlessly calculate age and important milestone dates with precision and ease. Seamlessly blending functionality with intuitive design, this app simplifies the process of determining one's age and significant events, making it an indispensable tool for users of all ages. <https://janeanezi.github.io/Age-Calculator/>

Sign up

A meticulously crafted gateway that prioritizes user convenience, data security, and accessibility. With its intuitive design, robust authentication mechanisms, and seamless user experience that allows users to sign up, interact with various features, and create an account to join a platform. <https://github.com/janeAnezi/SignUp>

Budget-Buddy

A comprehensive finance management app designed to effortlessly handle your financial matters. Seamlessly track your income, expenses, and savings goals all within a single, intuitive platform. <https://janeanezi.github.io/Budget-Buddy/>

EDUCATION
